Introduction

Dear Teacher,

We are writing to you to introduce *Focus*, our new course for upper secondary students. This course is the fruit of our many years' teaching, writing and developing materials. Our aim has been to produce a set of materials that will help you to be the best teacher you can be. In other words, we want to help you to create the optimum conditions for your students to learn English.

Of course, we accept that everybody's teaching context is unique and the perfect English course is an unattainable dream. That said, our own experience in the classroom has taught us to value three things above all when using teaching and learning materials: reliability, flexibility and credibility.

Reliability

Quite simply, we want the materials to work. We don't want the course to let you down in the classroom. So we've gone for a clean design, clear, easy-to-understand instructions and a wide variety of engaging topics, texts and tasks that have been combined in a logical way that will make sense to you and to your students.

Needless to say, the course covers all the necessary language work appropriate for the level and follows the Common European Framework of Reference (CEFR). We hope you will appreciate the stimulating and memorable way in which each carefully selected grammar structure and vocabulary item is presented. But we are well aware that presenting language is not even half the story. We have designed these materials so that they systematically recycle the language that has been presented. 'Use it or lose it' is our motto. You will discover that this course, with all its supporting print-based and digital materials, provides your students with the repeated exposure and practice they require. Reliability = trust. We are confident you will be able to trust *Focus*.

Flexibility

One of the things we learnt early on in our careers is that you teach the students, not the lesson plan. There is no point in slavishly following a prescribed 'teaching path' through a set of materials if the students are not with you. Your ability to react to emerging classroom situations and adapt your lesson accordingly is a vital teaching skill. We strongly believe that a rigid unit structure does NOT have to be a teaching straitjacket. The lessons themselves are brimful of different ideas, task types and interesting information. Then the

supplementary material we have developed, both print-based and digital, offers you almost limitless flexibility. You can give extra multiple choice grammar exercises, do a communicative A/B information-gap activity or watch a video clip. Flexibility = choice. We think you will appreciate the range of choice in *Focus*.

Credibility

So, while we are sure that a reliable and flexible course will help you, it's this third characteristic that really counts. We'd like to take this opportunity to summarise our thinking on this and explain what lies at the heart of *Focus*. We can do this by grouping our thoughts under three words beginning with M: *Motivation, Memory and Meaning*.

Motivation

Then the other one percent has to do with your methods. This is our starting point: students learn best when they are interested in the material. It's as simple as that. We may not have got it right every time for your particular teaching context, but our overriding concern has been to select topics, texts and tasks that engage students both emotionally and intellectually.

Memory

Systematic recycling of new language is a core feature of *Focus*. There is a particular emphasis on vocabulary. In the process of building their own 'Word Store', students using *Focus* will devote valuable time to new vocabulary, as well as learning a variety of ways of recording it.

Meaning

We are strongly opposed to mechanistic practice and drills where form dominates and meaning is irrelevant. Don't practise language for the sake of it. Language exists to make meanings and our learning materials should reflect this.

These are some of the more important ideas that we hold dear. Over the years, they have influenced our teaching and our writing. Credibility = belief. We want you to believe in *Focus*.

So now it's over to you. We'd like to take this opportunity to wish you and your students every success.

Our warmest regards,

Sue and Vaughan

1 The grammar in each lesson is presented in context and highlighted, to make it easily identifiable.

3 Each lesson ends with a production exercise, where students actively use the grammar from the lesson.

4 The GRAMMAR FOCUS reference can be used for review at the end of a Grammar lesson or during unit review. It can also be used by fast-finishers or students who require extra practice. Each structure presented in Grammar lessons has its own section in GRAMMAR FOCUS, which includes a detailed explanation of the structure and additional practice exercises.

Grammar animation videos

- 1 Key language and structures from the Grammar lessons are used in context in the videos, showing students how they are used in real-life situations.

2 There is one animation per unit, except for Units 6 and 7, where one animation covers the grammar from both lessons in the unit (these animations should be used alongside Lessons 6.5 and 7.5). Further teacher's notes on how to use the grammar animations are available on pages 16–17 of the Teacher's Book.

3 Each video is accompanied by a teacher's commentary, where the grammar point is clearly explained. Students can use the video and commentary to analyse the grammar point at their own pace.

[illegible]

The sequence consists of three images:

- Image 1:** A blue background with a red circle and a magnifying glass. The text "GRAMMAR IN FOCUS" is displayed in a white box.
- Image 2:** A cartoon illustration of a woman with long dark hair and green eyes, wearing a red shirt. She is shown in two states: on the left, she is looking surprised with her mouth open; on the right, she is sitting at a table with a plate of food (yellow rice and red tomatoes) in front of her.
- Image 3:** A photograph of a man with short brown hair and a beard, wearing a dark blue button-down shirt, smiling against a light blue background.

Listening lesson

Interactive speaking video

Interactive speaking videos accompany most of the Speaking lessons, making them more attractive and dynamic. The goal of these videos is to help students focus on and practise functional language in everyday situations.

- 1 The interactive speaking videos have three parts. First, the complete conversation is acted out, setting the context for students to see the language in use.
- 2 Then, while character A acts out a shorter version of the conversation, the other half remains silent and timed. This gap in the conversation gives students an opportunity to play the role of character B by performing their lines.
- 3 Students then switch roles and repeat. It is recommended to use the interactive videos at the end of the Speaking lesson, once the other speaking activities have been completed. Students can practise either in pairs, as a group or individually and can repeat the exercise as many times as they like.

Review lesson

The Review lesson has two parts: a review of grammar and vocabulary, and an integrated four skills section.

- 1 The **VOCABULARY AND GRAMMAR** and **LANGUAGE IN USE** sections focus on reviewing vocabulary and grammar structures from the unit. The **LANGUAGE IN USE SECTION** reviews functional language from the unit.
- 2 Exam-style listening tasks help students to review and practise listening skills.
- 3 The reading tasks in the review lessons focus on reading skills and language use practice, through exercises developed to mirror the exam style.
- 4 Carefully developed speaking activities guide students to review and practise speaking skills.
- 5 The writing exercises are based on the *Cambridge English: Key (KET) for Schools* exam tasks.

Word practice and Word store

The WORD PRACTICE and WORD STORE exercises in the WORD STORE booklet can be used as part of the unit review.

1 WORD PRACTICE sections appear in every unit and review language from the current and the previous unit.

2 All other WORD STORE activities are tied into the Vocabulary, Grammar, Listening and Reading lessons of the unit, giving students additional practice in structures and new language.

Workbook

The Workbook mirrors the Students' Book lessons and provides extra practice exercises focusing on Vocabulary, Reading, Writing, Speaking and Grammar lessons from each unit. It is also designed to help students prepare for their exam. Tips on exam strategies for Listening, Reading, Writing, Speaking and Use of English can be found in the EXAM STRATEGIES section at the back of the Workbook.

1 The SHOW WHAT YOU KNOW and SHOW WHAT YOU'VE LEARNT sections help students to consolidate new language and be aware of their own learning.

2 Workbook exercises consolidate use of language presented in the Students' Book. In addition, a USE OF ENGLISH or WORD PRACTICE page complements the page in the WORD STORE booklet. Additional resources at the back of the Workbook include a FUNCTION PHRASE BANK for writing, a VOCABULARY BANK and VOCABULARY PRACTICE exercises.

3 The Workbook encourages students to actively assess how much they have learnt, through the SELF-ASSESSMENT page in every unit.

4 After assessing their own learning, students can do the SELF-CHECK page to verify how much they have learnt in relevance to the unit goals.

- 1 A and B End-of-year test

Assessment of learning or assessment for learning?

Any test can be used either as assessment of learning or assessment for learning. Assessment of learning usually takes place after the learning has happened and provides information about what the student is achieving by giving a mark of a grade. You can also use the tests as assessment for learning by providing specific feedback on students' strengths and weaknesses, and suggestions for improvement as part of the continual learning process.

It is a combination of both types of assessment which can provide powerful tools for helping your students' progress.

Marking Writing and Speaking tests

Writing and Speaking tests have detailed mark keys to help you mark consistently and give students meaningful feedback. If you have the mark scheme for the exam your students will ultimately take, you may prefer to refer to this.

Whichever mark scheme you use, it can be very useful to go through it with your students before they take the test so they know what they are going to be marked against. You can then refer back to these marking criteria in your feedback.

Versions of tests

Most tests have two versions: A and B. Versions A and B are designed to be at exactly the same level of difficulty and feature the same task types; however, the test items in each are different. For listening tests, the tasks are different but the audio is the same in both A and B versions, making it easy to administer.

You can use the A/B tests in two ways:

- give half of the class A versions and half of the class B versions – this helps to deter cheating.
- give all students the A test and then use the B test either for students who missed the test or as a re-test or remedial work for students whose score shows they need a little more work on the unit objectives.

Exam preparation

As your students are going to be working towards their exam, the tests also provide regular opportunities for them to try exam-style tasks in a low stakes test environment, which should help them feel more confident going into the final exam.

We would recommend using past papers or practice papers in addition as you get close to the date of the exam.

Expected outcomes

We would expect all students who have completed the instructional material to score at least 50 percent, and the best students to score 90–100 percent on any given test. We have deliberately included more challenging questions in each test so as to help you identify students performing above the level.

Tests on paper

The tests are provided in both pdf and Word format. We recommend using the pdf versions, as they are. However, if you do need to edit the tests, this should be possible.

When you are marking tests, there is an extended answer key to help you explain why a question is right or wrong, or which part of the text an answer can be found in.

Tests on MyEnglishLab

All of the Unit tests can be taken through the MyEnglishLab platform. On MyEnglishLab, all students take the A test. The B test becomes remediation for those students who need it.

Most parts of the test are automatically scored, and students get instant detailed feedback showing them where they went wrong or how to improve if you have allowed a 'try again' option. The free writing and speaking parts need to be teacher-graded. You assign each part separately, so you can choose whether to add these or not.

Placement test

The *Focus* Placement tests are designed to help the teacher to place students at the right level of the *Focus* series. Each test contains 100 multiple-choice questions and is designed to last for an hour. If students get less than 60 percent of the answers right, they should use the lower level indicated in the title, e.g. for the *Focus 2/ Focus 3* test they should use *Focus 2*. If they get more than 70 percent of the answers right, they should use the higher level indicated in the title. 60–70 percent of right answers puts students in the middle of the two levels and your decision as to where to place these students should depend on the level of the rest of the class.

Grammar quizzes

There are sixteen short A and B Grammar quizzes (two per unit), which test the grammar taught in each Grammar lesson in the Students' Book. The Grammar quizzes can be used at the end of a lesson, for homework, as a review at the beginning of the next lesson or later in the unit as quick revision.

Vocabulary quizzes

There are eight A and B Vocabulary quizzes, which test the vocabulary taught in each Vocabulary lesson in the Students' Book. Depending on the quiz, they should take between ten and twenty minutes each.

Unit tests

There are eight Unit tests, which test the learning objectives from each unit. These should be administered after each respective unit review.

Each test has three parts: Vocabulary and Grammar; Dictation, Listening and Reading; Writing. The Vocabulary and Grammar and Dictation, Listening and Reading parts have A and B versions. There is only one version of the Writing task.

You can assign all or none of these, depending on the time available. If you are including the Listening test, it is best to do the listening first, and then students can do the other sections in their own time.

Review tests

There are four Review tests (one every two units). These are cumulative achievement tests, and so test the learning objectives from all units so far:

Review test 1: Units 1–2

Review test 2: Units 1–4

Review test 3: Units 1–6

Review test 4: Units 1–8

Depending on your school year, you may wish to do all of these or just some of them.

Each test has three parts: Vocabulary, Grammar and Use of English; Writing; Speaking. The Vocabulary, Grammar and Use of English parts have A and B versions. There is only one version of the Writing task. Students do the Speaking tasks in pairs and there are separate materials for Students A and B, as well as notes for the teacher with questions, which are incorporated into the Answer key.

As with the Unit tests, you can assign all or none of the parts of the test, depending on the time available.

End-of-year test

The End-of-year test provides a skills-based test covering learning objectives from the whole course.

Each test has three parts: Listening, Use of English and Reading; Writing; Speaking. The Listening, Use of English and Reading part has A and B versions. There is only one version of the Writing task. Students do the Speaking tasks in pairs, and there are separate materials for Students A and B, as well as notes for the teacher with questions, which are incorporated into the Answer key.

You can assign all or none of the parts of the test, depending on the time available.

Using Progress to track progress

Progress is an optional addition to the *Focus* corpus. It is a standardised package of three tests that allows uniform testing and comparison of results to improve learning outcomes and accurately show learners' progress.

The tests can be conveniently taken either at school or at home, and results are delivered very quickly. *Progress* is scored on Global Scale of English and empirically aligned to the CEFR to accurately measure small amounts of progress within a CEFR band. The test reports overall scores and scores by skill, highlighting strengths and weaknesses to help students and teachers focus learning. For more information, see pearsonelt.com/progress.

The Global Scale of English

The Global Scale of English is a standardised, granular scale from 10 to 90, which measures English language proficiency. Unlike other benchmarks which describe attainment in broad bands, it identifies what a learner can do at each point on the scale across speaking, listening, reading and writing skills. For instance, a person who has a speaking ability of 47 'can describe their dreams, hopes and ambitions'.

The scale is designed to motivate learners by demonstrating incremental, step-by-step progress in their language ability. Teachers can use their knowledge of their students' Global Scale of English level to choose materials that are precisely matched to ability and learning goals.

The Global Scale of English serves as a standard against which English language courses and assessments worldwide can be benchmarked, offering a truly global and shared understanding of language proficiency levels.

Visit English.com/gse to learn more about the Global Scale of English.

Assessment for learning

Focus includes elements of Assessment for learning methodology. The aim is to enhance learning by supporting students in understanding what they know and what they need to do next, making them active in their own learning. At the same time, using assessment for learning helps teachers to understand where their students are in their learning and teachers to make decisions about how to help students improve.

When we talk about assessment for learning, we're really talking about assessing students formatively, watching and listening to our students to see how far they understand and using this to help decide what we need to do next. This can be during any activity in class or using a test from the Assessment Package.

In *Focus*, a handful of assessment for learning techniques and activities have been integrated into each unit to give students an awareness of what and how they are learning and give you, the teacher, lots of opportunities to assess how each student is doing.

Each unit starts with the unit objectives, to help students understand the goals. There is a thought-provoking quote linked to the topic of the unit to get students thinking about the theme as a whole, as well as help them remember any topic vocabulary that they already know. The SHOW WHAT YOU KNOW section at the start of the unit reinforces this and helps all students start from a confident beginning.

The lesson objectives in the Students' Book and the SHOW WHAT YOU KNOW sections in the Workbook serve a similar purpose at a lesson level. These are supported by SHOW WHAT YOU'VE LEARNT sections which help students see how far they've come in one lesson.

Throughout the unit, you can use class activities and/or the quizzes in the Assessment Package to check students' learning and deal with any misunderstandings or areas of weakness during the cycle of learning. Consider using the quizzes and other tests in alternative ways: have students work on them together or mark each other's papers. Ask them to highlight areas for revision or further work. Rather than marking papers right or wrong, indicate how many are wrong and ask students to work together to find the errors, using their classmates' feedback, the Internet or reference books to help make the corrections.

The Workbook units finish with a SELF-ASSESSMENT page, followed by a SELF-CHECK. The SELF-ASSESSMENT page asks students to reflect on their learning for each of the learning objectives in the unit and points them to where they can go to revise any point or get more help. Students also note down new vocabulary items they want to learn, which helps reinforce the intention and focus their attention on an achievable goal, and their out-of-class English experience during that unit, which will help them think about the wider opportunities for learning and using English. The SELF-CHECK pages are a traditional review of the grammar and vocabulary from the unit and will help students to confirm their self-assessment.

Components

Student's Book and Word Store

Focus 1 Students' Book contains eight thematic units, each of which is ten pages long and divided into the following sections: Vocabulary, Grammar, Listening, Reading, Speaking and Writing. Additionally, the Students' Book opens with an Intro unit consisting of eight individual lessons that help students revise the material from the preceding level. Each main unit is followed by a two-page FOCUS REVIEW section, which revises the material covered in that unit. The majority of the task types in this section are exam oriented. The GRAMMAR FOCUS section at the back of the book contains grammar explanations for each grammar point, with additional practice exercises. The Students' Book also comes with a twenty-four-page WORD STORE booklet inserted at the back. By completing the exercises in the WORD STORE, students compile their own mini dictionaries of the most important words and phrases from the unit. The WORD STORE also contains a wealth of support material such as a list of phrasal verbs with example sentences, a list of prepositional phrases and additional Use of English activities focusing on language from the unit.

Class CDs

The audio material is an important element of *Focus*. The class CDs include dialogues and listening activities from the Students' Book, which include use of all the vocabulary from the WORD STORE.

The words and phrases from the word lists are also recorded in MP3 format and can be downloaded from www.english.com/focus.

Workbook

The Workbook has been specifically developed to help students pass their exams. It activates all of the language introduced in the Students' Book. It mirrors the organisation of the Students' Book and its helpful features include:

- Exam strategies: explanation of the different exam task types students will encounter, as well as coaching students in the best techniques to use in the actual exam.
- Function phrase bank, writing: reference for the writing exercises in the Workbook.
- Function phrase bank, speaking: a collection of phrases from the SPEAKING FOCUS boxes in the Students' Book, providing reference for the speaking exercises in the Workbook.
- Vocabulary and Grammar sections, as well as practice exercises, containing the following features:
 - SHOW WHAT YOU KNOW: catch-up exercises that ensure that all students start with the same input.
 - SHOW WHAT YOU'VE LEARNT: test-format exercises that help students assess whether they have mastered the material adequately.
- VOCABULARY BANK: this section at the back of the book contains all the vocabulary from the course which is organised by topic and lexical set, followed by practice exercises. Students are advised to do the exercises from this section once they have completed the corresponding unit in the Students' Book.

- Skills sections: each unit provides further exam oriented practice of Reading, Listening, Speaking, Writing and Use of English.

The LISTENING LANGUAGE PRACTICE sections include exercises that further exploit the audio scripts from the Students' Book Listening lessons.

Both the READING and LISTENING LANGUAGE PRACTICE sections also contain exercises which practise the language items from the respective WORD STORE sections in the Students' Book.

Speaking exercises help students memorise and practise the functions introduced in the Students' Book and in the interactive speaking videos.

Writing sections include a model text which students use for their homework assignments and a SHOW THAT YOU'VE CHECKED box that helps students check their written assignments before handing them in.

- SELF-CHECK sections: these sections in every unit help students prepare for the tests in the Assessment Package. And as the key to these sections is provided in the Workbook, students can assess their progress and decide if they need further practice.

MyEnglishLab

This is an online Workbook which can be accessed by teachers and students at <http://myenglishlab.com>. It provides additional motivating material for self-study and allows teachers instant access to their students' scores.

MyEnglishLab:

- contains the same material as the paper Workbook in an interactive format
- contains all the video content of the course
- has self-check and remediation functionality to save teachers time
- allows students to monitor their own progress
- is intuitive and easy to use
- requires an Internet connection.

You can also add *Progress*, an optional separate test component to help track students' progress in a granular way (see full description on page 12).

Teacher's Book

The Teacher's Book contains a wealth of additional material for teachers. The introductory pages provide information about the unique features of the Students' Book as well as the other course components, including the video elements. They contain a Unit walkthrough (see pages 5–10) which gives a visual presentation of how the Students' Book units work, ideas on how to use the Word Store at the back of the Students' Book and what additional resources and material are available as part of the Students' Book.

The Teacher's Book contains slightly reduced reproductions of the Students' Book pages, complete with answers, suggestions for extra activities and detailed information about the contents of all the other components that can be used with a given lesson.

It also contains the Students' Book audio script and the Workbook answer key.

The Culture notes provide a wealth of information connected with the people, history and photos in the Students' Book.

The bank of photocopiable activities contains the following:

- vocabulary and grammar activities
- gapped Students' Book texts
- Test yourself pairwork activities
- activities providing support for the speaking and writing tasks from the Focus Review sections.

ActiveTeach

The ActiveTeach is an Interactive Whiteboard Software which includes many innovative features and a wealth of materials. It contains the Students' Book pages in electronic format, where all exercises have the in-built functionality for teachers to check and/or show answers. The majority of activities are interactive exercises in which students can fill in gaps, drag and drop, match items, as well as check their answers. Open-ended practice tasks also include sample answers students can follow when preparing their own dialogues, monologues or written assignments.

Additional games are available to aid extra practice in the classroom and teachers can save their work and notes directly into the software. Included are instant links to all of the audio and video from the course, along with optional subtitles for the teacher to use if he or she wishes to. Most teacher's resource materials are accessible on the ActiveTeach in downloadable formats, such as photocopiable activities and audio or video scripts. The Assessment Package can also be downloaded either in PDF or editable Word, with all documents clearly organized by unit.

Video

Available either via MyLab, ActiveTeach or the Teacher's multi-rom, the video element of *Focus* is particularly rich and varied. The three types of video available are:

- Grammar animations: every Grammar lesson is illustrated through these lively animations. Key language is used in context in these videos, providing evidence for students of how the language is used in real-life situations. The animation is followed by teacher commentary on the grammar point, which provides a brief, simple resume of the language and serves as further back-up for the practice activities done in class. However, the animations can be played either at the beginning of the Grammar lesson, to show the grammar in context, after the teacher has explained the grammar point in detail or at the end of the class, as a tool for review. Students can also access the animation and the teacher's commentary to analyse the grammar point at their own pace and as many times as they need.

- Interactive speaking videos: these videos accompany most Speaking lessons and demonstrate a conversation that appears on the Students' Book page in the Speaking sections. Each interactive speaking video is filmed with native speakers, who model the conversation in order for students to visualise the context. The same conversation is then repeated with optional subtitles, although only one actor speaks their half of the conversation and the other part remains silent and timed. This gap in the conversation allows students to take on a role of either Student A or Student B and act out the missing part of the conversation or work in pairs and perform both parts A and B. Students may like to repeat this exercise several times, either individually or as a group. This provides a simple but effective tool for improving speaking and pronunciation fluency, as well as helping students to focus on using functional language in everyday conversations (such as asking for directions, giving an opinion or buying food). We recommend using the interactive videos at the end of the Speaking lesson, once the speaking activities in the Students' Book have been completed.
- Newsfeed service: this consists of current, authentic television news clips, which are delivered periodically throughout the school year and are accompanied by worksheets at Elementary (CEFR A2) and Intermediate (CEFR B2) levels. Designed for students to watch and work with at home, teachers can also choose to work with them in class if they wish. They provide a uniquely motivating source of authentic language input, selected for their immediacy and relevance to students' lives. The authentic clips are selected for their interest level for the students, while the accompanying tasks and activities are provided at two levels: Elementary (CEFR A2) and Intermediate (CEFR B2).

Assessment Package

The Assessment Package is more than just a collection of tests. It offers a coherent system of evaluation and grading which covers a wide range of test types which reflect common external exams. All tests can be used as assessment for learning or assessment of learning. (See pages 11–13 for more detail.)

Grammar animations

What are the grammar animations?

The grammar animations are a new and innovative resource for teaching grammar. They appear in each Grammar lesson, so there are two grammar animations in each unit (apart from Units 6 and 7, where one animation covers both lessons). They are available on the Teacher's Multi-Rom, the ActiveTeach, the Teacher's website and the Student's website, which means they can be used by both teachers and students, in the classroom or outside the classroom. Each animation is composed of two parts: the animated cartoon, which presents the target grammar structure in context, and the teacher's explanation, which reinforces understanding and learning of the structure.

Why are the grammar animations an innovative resource to teach grammar?

In the modern image-driven world, using video in the classroom is one of the most effective ways to engage and motivate students. There is a tradition of teaching speaking via videos with real characters, and methodologists of language teaching agree the method is very effective as students can see the target language in a visual context and identify with the characters.

However, such methods are rarely used in teaching grammar, despite it being proven that seeing the target grammar structures in a video context enables students to understand them better and remember them longer.

The grammar animations not only add more context to the grammar lessons but also provide a context that is very different and really appeals to students. The videos are short and up-to-date, the plots engaging and the characters funny. In the *Focus 1* grammar animations students will meet not only ordinary teenagers like them (also teenagers from different countries) in different social situations, but also such characters as a private investigator, young people who travelled to Mongolia and a fruitarian, and they will hear amusing stories about a man who created a very special football team with people of different ages or about a couple who are looking for a pet-sitter.

The teacher's explanation is concise and ready to use.

How to use the grammar animations in the classroom

- The grammar animations do not compete with the on-page context in the lesson – they add much more for the teacher and the student. The fact that the video context is not connected with the on-page context of the lesson and is not a part of the flow of the lesson makes it a priceless resource, as it can be used when the teacher finds it necessary, independently of the other resources.
- Depending on the lesson plan, the teacher can decide to work with the animation at the beginning of the lesson as an introduction, after explaining the grammar point via the dialogue or text on the page or at the end of the lesson.
- Some groups might find the grammar animation the most attractive part of the lesson, so it is a great tool to be used when the students' attention begins to fall or as a certain 'prize' for students.
- Teachers very often decide to cover the grammar point on more than one lesson, as the grammar often causes problems. Then the animation can be a good starting point at the beginning of the second lesson. It can also be used for revision when needed.
- The teacher's part can, but does not have to, be used during the lesson. Some teachers may prefer to explain the grammar point in the students' L1 or compare it to structures in the students' L1.

Other teachers find it really helpful, as some students might need to hear the explanation more than once and they have a concise explanation at hand and ready to use: they can make students watch it and then answer their questions. The video can be stopped at any place, which gives the teacher two possibilities: play the whole video or stop it after the animation, before the teacher's part starts.

- The topic of the animation is consistent with the topic of the unit and new vocabulary is avoided, which makes students feel comfortable while watching the animation. The easy lexical context enables students to focus on the grammar structures without being distracted by new lexis.
- Subtitles can be switched on or off, which gives the teacher more options to work with a given animation and adjust the lesson to the level of the group.

How to use the grammar animations outside the classroom

- As the grammar animations are available on the Student's website, they can be used by students outside the classroom. This makes them an invaluable resource for students.
- Students who were absent from school have a ready grammar explanation and the grammar in context to watch at home. This is especially good for auditory learners, who like hearing the explanation and watching language in a video context more than reading the dry information on the page.
- Weaker students who find the grammar explanation insufficient can always watch the animation at home at their own pace.
- Students who revise before tests or exams can use this resource to go through the grammar points covered. The explanations are concise and the video that has already been watched quickly reminds them of a given grammar topic. Timewise, it's probably one of the most efficient ways of revising grammar.

Suggested teaching procedure

Example: grammar animation for Lesson 2.2, countable and uncountable nouns

Introduction

- Explain to students that they are going to watch an animated cartoon which will give them more context for the grammar.
- Play the video and stop after the introduction [00:31]. Ask students a few warm-up questions like: *Who are the people? What is the mother making for dinner? Who's invited for dinner?* Make sure students understand that the family have invited Ella's (the daughter's) friend for dinner. Elicit or explain the meaning of *fruitarian*, then ask for examples of what a fruitarian might eat, to revise some food vocabulary. The questions asked in each lesson should revise vocabulary from the unit if possible.

Comprehension

- Play the video with the subtitles off and ask students to watch and listen carefully. Ask a few general comprehension questions like: *Who's Stewart? Can he eat the vegetable curry/the pancakes? Can they make a salad for Stewart? Where do they have dinner in the end?*
- Play the whole video once again, with subtitles. Ask students to pay special attention to the food words (countable and uncountable nouns).

Video practice

- Explain to students that the animation provides more context for the topic of the lesson and remind them that the lesson is about countable and uncountable nouns. Ask them if they can remember any countable and uncountable nouns from the video. Make a list in two columns on the board. Don't worry if students don't remember all the nouns – use the script to read out the sentences with the target language and put more nouns on the board. It's a good idea to elicit some target language from the cartoons and put it on the board; it will serve as prompts for the speaking exercise at the end.
- If you realise that students still don't understand the difference between countable and uncountable nouns, use the teacher's part to remind them what the difference is. If you feel they are doing well and can list a few examples and provide explanation, then you can omit the teacher's part.
- You can play the animation for a third time in weaker groups or if students really want to watch it. Then pause after sentences where there are countable and uncountable nouns. Ask students to decide what patterns are used with each (e.g. *Is there or are there? Much or many? Some or any?*). You can ask them to repeat a sentence, turning the subtitles off, especially where they had problems with a given example.

Extra practice

- Explain to students that they are going to prepare similar dialogues in groups. Explain that the dialogues won't have to be exactly the same, but they'll have to use some of the language on the board.
- Divide students into groups of four and let them prepare for the dialogue. Students should present their dialogues in front of the class, to make it more engaging.

If you are short of time, some elements of the introduction and extra practice can be omitted.

Ithaa Undersea Restaurant

A

Rangali Island, Maldives

Ithaa is the world's first undersea restaurant. It's about five metres below the sea and has fantastic views because it has glass walls. You can sometimes see sharks! Visitors go to a small building and climb down some stairs to the restaurant. It's a really cool place to eat for up to fourteen people. The restaurant serves six courses at night and four courses at lunch time. It's great for really fresh fish and seafood, but they also serve meat dishes. And the desserts are delicious too. A meal costs from €90 to €200, but it's worth it!

Dinner in the Sky organises meals in forty countries and the food is different in each place. In Hungary, for example, you can have traditional dishes like *halászlé* (fish soup) or pancakes with meat. In Spain, you can have *paella*, a traditional dish of rice with seafood. You choose a city and a menu and then Dinner in the Sky takes you fifty metres up in the sky for your meal! It's very expensive – about €30,000 for twenty-two people – but it's a wonderful experience. It doesn't matter how old you are, but you need to be at least 150 centimetres tall if you want to eat there.

's Baggers

C

Nuremberg, Germany

There are twelve chefs at this restaurant, but there aren't any waiters! You order your food from touch screen computers at the table. The kitchens are upstairs. The food comes to the table along long metal tracks! The food is very healthy because the chefs use only fresh local ingredients and very little fat. There are vegetarian dishes if you don't eat meat. Main courses are around €10–€20 and desserts €5–€7. Try the grilled pork with mushroom sauce or the spicy sausage (it has a hot strong taste!). And after your meal, you can rate the food and the experience from your touch screen!

You call this WORK?

Do you sometimes dream of a job that is easy and fun?
Here are some great jobs.

A DREAM JOB

⁵ Ella, twenty-one, gets her pay for 'sleeping'.

I work from nine to five, but my job is not very **demanding**! What do I do? Well, every day, I go to work and I sleep –
¹⁰ I sleep in a huge, comfortable bed. I know it doesn't sound like work, but my **employer** is a **factory** that makes beds. They want to test the beds and advertise the comfortable ones. So, some days, I
¹⁵ sleep in the shop window so **customers** can watch me! I write a blog about the experience. It's only for a month and I need the money for my studies. I **earn** thirty pounds a day.

²⁰ WOOSH!

Tommy, thirty, tests waterslides for a travel **company**.

I think I've got the best job in the world. No one believes me when
²⁵ I tell them what I do. I fly to holiday **resorts** round the world and test water slides! I write down the answers to questions like: *How high is the slide? How fast do you go? Is it fun?* And I
³⁰ ask people their opinion about the water slides, so I meet lots of people. I'm also **responsible** for testing safety. This year I'm working in Spain, Turkey, Mexico and the USA. I earn
³⁵ a good **salary** and I have lots of fun. It can be a bit unpleasant when it's cold, but apart from that, it's great. I love it!

But this summer everything's different. Our town **is organising** an arts festival. 100 people are staying at the hotel. Today we're preparing for a big party! At the moment, the waiters **are bringing** more tables and the manager **is telling** me to do three different jobs. I hate it when it is like this! No coffee for me today!

Comparative and superlative adjectives

I can use adjectives to make comparisons.

- In pairs, choose one of the people from the photos below and answer the questions.
 - What does he/she look like?
 - What do you think he/she is like?
- Read the text. What is important to Natalie, Martin and Danny? Who do you agree with most?

WHAT'S THE MOST IMPORTANT THING?

Natalie, 16

Money is not **the most important** thing! I like nice clothes and I love my new mobile phone, but they're just things. Money is less important than your family or friends. I think people are **happier** when they spend time with their friends and family.

Martin, 18

Sports! I love playing and watching sports. I also like hanging out with my friends. For me, my friends are **more important than** my family. Health is important too. I hate being sick! It's **worse than** exams!

Danny, 21

A good job is **the best** thing. Then you can buy everything you need. I don't think the poorest people in the world are happy. Their lives are **harder than** ours.

- Read the GRAMMAR FOCUS. Then look at the words in blue in the text and complete the examples.

I also spend quite a lot of time shopping for clothes! And of course, I love fashion (that's why I'm writing this blog!). My friends say I'm kind and I've got a good sense of humour. I like laughing a lot. 😊

C I've got a brother and a sister. My brother is fourteen, but he's taller than me. He's got short dark hair and blue eyes. He's really funny! My sister is ten. She's quite tall, but she isn't taller than me. She's very clever. She's got long straight blond hair and green eyes.

So now you know all about me!

5.4 Reading

Right/Wrong/Doesn't say

I can find specific detail in an article about a different kind of school.

- In pairs, discuss the questions about your school.
 - How many students are there?
 - What courses can students study?
 - What activities can students do?
 - Are there any compulsory (something that you have to do) activities?
 - Do students take part in any volunteer programmes?
- Read the title and the introduction of the article. Choose the phrase that describes what the article is about.
 - learning to sail a tall ship
 - a school on a sailing ship**
 - sailing around the world
- In which paragraph can you find this information? Read the article and match the paragraphs (A–F) with the information (1–6).

1 the courses	B
2 the students	C
3 the school on the ship	A
4 activities on the boat	D
5 volunteer projects	F
6 activities in the ports the students visit	E

EXAM FOCUS Right/Wrong/Doesn't say

- Read the text again. Are the statements right (R), wrong (W) or does the text not say (DS)?
 - Students must know how to sail before they join the ship. **DS**
 - Students come from different parts of the world. **R**
 - All the students do the same courses. **W**
 - Students don't have to speak English well. **R**
 - Besides studying, students also have to do jobs on the ship. **R**
 - Students go home to their parents for the holidays. **DS**

- In pairs, answer the questions in Exercise 1 for Class Afloat. Then compare Class Afloat with your school.

In my school there are ... students. Class Afloat has up to sixty students.

64

CD 2.36 MP3 92

School Ahoy!

Imagine sailing to over twenty different ports around the world while you are studying subjects you love! Impossible? Well, that is **exactly** what the students in Class Afloat do.

- A⁵ Class Afloat** is a Canadian school on a tall ship! The ship is sixty-four metres long and nine metres wide and it can take up to sixty students. The classrooms are **well-equipped** and **comfortable** and there's even a library! It isn't necessary to know anything about sailing – students can learn on the ship.
- B¹⁰** Not all the students are Canadian – there's usually a mix of nationalities. This year, there are also students from Mexico, the USA, Germany and Turkey. There's a mix of ages too. There are secondary school students – usually they're sixteen to eighteen years old – first year university students and students who are ¹⁵ doing a gap year programme.
- C** The teachers **design** special study programmes for each student. Because the school is a ship, you can do some exciting courses – for example, Marine Biology (studying the animals and plants in the sea) and History or Geography courses about the places ²⁰ you visit. Students also learn all about sailing! All the classes are in English, so you must have a good level of English.
- D** Students don't just study. They must also clean, cook and sail the ship. In their free time, students can rest, read or watch a film. In the evenings, they relax with friends, have club meetings ²⁵ and sometimes they have a karaoke night.
- E** Every sixteen to twenty days, the ship stops in a port for three to six days. In port there's lots to do – home stays, camping trips, museum tours, cultural events, hiking, etc. They also go snorkelling and do other water sports. Parents can meet up with ³⁰ the students in one port every term.
- F** Students also **participate** in two volunteer programmes in Senegal and the Dominican Republic. They help local families in different ways, for example, with basic health **matters** or starting a business. Students learn how, with just a little money and time, ³⁵ they can make changes that **improve** other people's lives.

EXTRA ACTIVITIES

In groups, students show their pictures and describe the unusual schools they have found out about. This can be a mini-project for a wall display. Then students can vote for the school they would most like to attend.

- 1 In pairs, look at the photo in text A and answer the questions. Then read text A and check.

- Who is the person in the photo? *Johnny Depp*
- What do you know about him?
- What is he most famous for?

THE STARS AND SCHOOL

JOHNNY DEPP is a famous film star now, but what was he like at school? *Was* he a good student? School *wasn't* a good experience for Johnny. The problem was that he *was* at over twenty different schools and often the students *weren't* very friendly. So school was often a lonely place for Johnny. His two favourite things *were* music and acting. He *couldn't* play the piano, but he *could* play the guitar. He could also sing very well and he was in a band called The Kids. His dream was to be a musician after school. His band was successful, but they *couldn't* get a record deal. Luckily, Johnny was also a great actor.

KRISTEN STEWART is a famous actress. But when she *was* younger, things *wasn't* / *weren't* always easy. She *wasn't* / *weren't* happy at high school because she *couldn't* / *couldn't* talk to other kids her age. They *was* / *were* interested in different things and so they *wasn't* / *weren't* very friendly to her. They *were* / *were* often jealous because Kristen *couldn't* / *couldn't* act really well.

ALBERT EINSTEIN was a very famous scientist. From an early age, he *was* good at Maths and Science and he *couldn't* play the violin well. But at school, he *wasn't* good at all subjects. History and Geography *weren't* easy for him and he *wasn't* good at foreign languages. But Einstein *was* a genius and scientists are still studying his brain to help them understand about intelligence.

Green School in Bali is an unusual school.

It was an experiment in 2010 by John and Cynthia Hardy. Their idea was to make a school that was totally environmentally friendly. Everything in the school is 'green' – that means it's good for the environment. The classrooms are made of bamboo wood and the light is from the sun. The school uses solar power and water power from their river. The Hardys' experiment was successful and there are now 160 students from more than twenty-five countries – and it goes from kindergarten up to age eighteen. The students at Green School don't only learn subjects such as English and Maths; they also learn to grow organic vegetables and other foods such as rice in the huge school gardens. They look after the plants and learn to cook them. The school also has a cow, some pigs and a buffalo. The students also study building, making furniture and traditional art and dance.

The Hardys want the local community to be a part of Green School. They have a rule that twenty percent of the students must be from Bali because they want local children to learn about protecting the environment. The children are often poor, so people from all over the world pay for them to go to the school. The idea of green living is becoming more popular and now people are building green houses near the school so their children can walk to school. The Hardys' dream is that one day all the schools in the world will be green.

6.2 Grammar

Past Simple: affirmatives

I can use the Past Simple to describe events in the past.

PASSION OR MADNESS?

When you look at mountains like this, do you think, 'I'd love to climb that!' or are you one of those people who say, 'Anyone who wants to climb that is mad!'?

These are Trango Towers (6,286 m) in the Karakoram in Pakistan. British climber Martin Boysen tried to climb them in 1975 and nearly died. In 1976 he tried again and became the first climber to reach the top.

In 1990 Japanese climber Takeyasu Minamiura climbed to the top of one side of the mountain. But that wasn't his main aim. He wanted to paraglide to the bottom.

On 9 September Minamiura jumped off the top of Trango Towers, but his paraglider hit

the wall and he fell forty-five metres until the glider caught on a piece of rock and saved his life. And there he hung. The fall broke his glasses, but he was OK. When his hands stopped shaking, he took his radio and contacted his friends. He asked them to send a helicopter to rescue him.

- 1 Read the first part of a story. Who was the first person to climb Trango Towers? *Martin Boysen*
- 2 Read GRAMMAR FOCUS 1 and look at the verbs in blue in the story. Then write the Past Simple form of the verbs below.

After half an hour I had more space around me.

²⁰ *Then* I just concentrated on running. I reached the finish line in three hours and forty-two minutes. *Finally*, I got my medal. I was really pleased. They told me I raised £1,000!

Cycling for water

CD 3.30 MP3 127

Dutch friends Michiel Roodenburg and Joost Notenboom are on a 30,000-kilometre cycling trip from the Arctic to the Antarctic! They started on 4 July in northern Alaska and now, nineteen months later, they are in Chile. They hope to finish their journey in a month's time when they reach Ushuaia, in Argentina, the southernmost city in the world. Their journey has already taken them through fifteen different countries! Here, they tell us all about their amazing adventure to raise money for their organisation, Cycle for Water.

USHUAIA

CULTURE NOTES >>> p. 142

EXTRA ACTIVITIES

- In pairs, students write five true/false sentences about the text and swap with

another pair to answer their questions.

- Elicit other ways of raising funds for charity and write them on the board. In groups, students choose a charity fundraising event and either a) imagine what they would do to plan the event

or b) imagine they have attended the event and are writing about what happened and what they did.

WORKBOOK

p. 84–85

A 4

There's a world water crisis and we want people to know about it. We also want to raise money for our organisation, Cycle for Water. It provides clean, safe water for towns and villages in Central and South America. We've carried a bottle of water from the Arctic all the way! At the end of the trip, we plan to pour it into the Antarctic.

B 2

We've met so many wonderful people! People have invited us to stay in their homes, given us food, laughed with us and shared our story. When we were in San Francisco, CNN asked us to go on their news show – that was really cool too. We also went to visit one of our water projects in San Juan La Laguna in Guatemala. It was fantastic to see the difference it makes to people's lives.

C 5

The beginning of the trip was really tough because we didn't train before we started and it was hard work pulling a heavy trailer behind our bikes. There were also millions of mosquitoes, dogs chased us and Michiel's bike broke. Luckily, after a few weeks things got much better!

D 1

We've got bamboo bikes. The frame is bamboo, not metal. It's very strong and flexible so you don't feel the bumps in the road. They're really comfortable bikes to ride and they're environmentally friendly.

E 3

When you travel by bike, you meet people more quickly than you do when you are in a car or a coach. It is the best way to experience a place and you don't harm the environment in any way. It's a great way to learn about how people live and to learn about the world.

5 Match the words in the box with the pictures.

bumps frame mosquito pour trailer

1 bumps

2 pour

3 trailer

4 frame

5 mosquito

6 Complete the sentences with the correct form of the words and phrases in blue in the article.

- If you want to experience London, take a bus, not the underground.
- Our cycling trip was really tough – we had to cycle for eight hours a day!
- Most plastics are flexible and so they don't break easily.
- We reached the end of the journey after 605 days on the road.
- Electric cars are the most environmentally friendly cars.
- They stole our money, but they didn't degree us.

7 Discuss the questions in pairs.

HITCHBOT

Have you ever seen a hitchhiker standing by the side of a road? Hitchhiking is popular with young people because it doesn't cost anything – drivers stop and take you on all or part of your journey. Of course, it's not like a bus or train because it can take a long time, but hitchhikers say they meet some amazing people. Now drivers in Canada might see an unusual hitchhiker – Hitchbot, a hitchhiking robot. One of its inventors, David Harris Smith, has hitched across Canada three times and says he had some of the best experiences of his life. Smith and a colleague, Frauke Zeller, have built Hitchbot because they wanted to see if people would stop and give the robot a lift and talk to it. The robot can chat about things it has learnt, about its inventors and about its journey. It has access to Wikipedia and it runs on solar power. You might think it's a joke, but Smith and Zeller's experiment has a serious point – can robots and people get on together?

Hitchbot's journey started in Nova Scotia in July. It has already completed a third of its 6,000 mile journey to Victoria. It's now near Lake Superior. More than 57,000 people are following its journey on Facebook and Twitter and travellers have posted lots of photos on the website. Hitchbot has also done some shopping, eaten motor oil and had fun with travellers. Nobody knows when it will finish its journey – Zeller and Smith want Hitchbot to get as many rides as possible. It hasn't been in a self-driving car yet, but anything is possible!

The Coral Triangle

There are 600 kinds of coral and 2,000 kinds of fish. Six of the world's seven types of sea turtles swim in the sea here. There are whales, sharks and strange sea snails which eat coral and look like bits of coral!

SOUTH AMERICA

Iguazu Falls

- You can hear it from miles away. On the border between Brazil and Argentina lies Iguazu, one of the world's largest waterfalls, surrounded by subtropical rainforest. The curtain of water is nearly three kilometres wide and eighty-two metres in the highest place. Rare plants which can only live in running water grow in the waterfall. In the 1986 film *The Mission*, you can see Robert de Niro climbing the Iguazu Falls.

NEXT CLASS

- Ask students to do Show what you know 8.2 in the WB, p. 94.

- Ask students to research two facts about polar bears and problems they are facing.

8.2 Grammar

Future with will

I can use will to talk about the future and predict future events.

- 1 What do you know about polar bears? Choose the correct options. Then read the text and check your answers.

- 1 Polar bears live in the Arctic / the Antarctic.
- 2 Polar bears spend a lot of time on small islands / on sea ice.
- 3 Global warming is / isn't a danger to polar bears.

Will there still be polar bears in the world in 2100?

Polar bears need sea ice to hunt, rest and travel. But the ice in the Arctic is melting because of global warming. Scientists believe that some time between 2059 and 2078 there **will be** no sea ice in summer in the Arctic Sea. The polar bear's habitat will become smaller and smaller. Bears **won't get** enough food in the summer; they won't be able to feed their young and many bears will die in winter.

There are now between 20,000 and 25,000 polar bears in the world. Some scientists predict that sixty percent **will disappear** before 2050. **Will** they all **die** before the end of the century?

- 2 Read the GRAMMAR FOCUS. Then complete the examples with the words in blue in the text.

GRAMMAR FOCUS

will

We use **will** to predict future events.

+ There ¹ **will** **be** no sea ice in summer.
Sixty percent of polar bears ² **will** **disappear** before 2050.

- Bears ³ **won't** **get** enough food in the summer.

? ⁴ **Will** all polar bears **die** before the end of the century?
Yes, they **will**. / No, they **won't**.

Short forms:

I'll = I will, you'll = you will, etc.; won't = will not

REMEMBER THIS

The future form of **can** is **will be able to**. The negative form is **won't be able to**.

Female bears **won't be able to** feed their young.

- 3 What do you think will happen in the next fifty years? Complete the sentences with **will** or **won't**. Then compare with a partner.

- 1 People _____ travel less.
- 2 Summers _____ get hotter.
- 3 Nuclear energy _____ become safer and more popular.
- 4 Elephants _____ die out.
- 5 There _____ be enough food in Europe.
- 6 Pollution _____ become worse.

- 4 In pairs, ask and answer the questions.

- 1 Will people still use cars in sixty years' time?
- 2 Will Venice and Amsterdam disappear under the sea?
- 3 Will there be enough food for everyone?
- 4 Will scientists solve the world energy problem?
- 5 Will there be a lot more people in the world?

A: **Will people still use cars in sixty years' time?**

B: **Yes, they will / No, they won't.**

REMEMBER THIS

You use **get** or **become** + a comparative adjective to say how things will change.

Summers **will get** hotter.

Pollution **will become** worse.

Will food **become more expensive**?

- 5 Write sentences about topics 1–5 with **get** or **become** and the comparative form of an adjective from the box. Then share your ideas with a partner.

EXTRA ACTIVITIES

- After doing Ex. 3, students write two more questions about each text in pairs. They swap them with another pair.

- Students write sentences about places they have visited using the collocations in Ex. 8. They read them out to their partners, who listen and ask questions.
- Students work in pairs. Using the information they have found about

national parks around the world, they write an article for a travel guide. They read out their articles and the class votes for the best place to go.

PLEASE DO NOT FEED SEA BIRDS

Water birds have a natural diet of fish and sea plants.
Human food, especially bread, is not good for their health.
5 Wild birds need to know how to find their own food. If you
feed them, they may lose this important skill. When you feed
animals, they may lose their natural **fear** of humans.

This is dangerous for the birds and may be
a **nuisance** to people – if, for example,
10 a bird tries to take your sandwich!

Thank you for your understanding
and **cooperation**.

Subject: Denali National Park

Hi Peggy,

I'm in Denali National Park in Alaska. It's an incredible place:
twenty-four square kilometres of wild land with just one road
across it. Yesterday we were on the park bus (you can't drive
5 your own car here) when, suddenly, three WOLVES ran past
us along the road! One of them looked right up at me and
I could see what a truly wild, dangerous, beautiful animal it
was. It was amazing, but I was happy to be inside the bus.

Tomorrow I'm going to take a helicopter ride to the Yanert
10 **Glacier** to see ice pools, ice bridges and ice falls! Doesn't
that sound cool? Wish you were here!

Ellen XXX

PS 'Denali' is the **original** Indian name for Mount McKinley,
the highest mountain in North America. You can see it
15 wherever you are over here!

B

YORKSHIRE DALES NATIONAL PARK

C

A very special place

The Yorkshire Dales have some of the most
5 **breathtaking** landscapes in Britain. You can
walk, cycle or ride for hours through the lovely,
peaceful countryside, over hills and fields with
their characteristic stone walls. You can relax by
a river or waterfall and have lunch in an old pub
10 in one of the picturesque villages.

The Yorkshire Dales, with their many **rare**
birds, are ideal for anyone interested
in **birdwatching**. This is your opportunity
to see peregrine falcons.

15 **Take a break** in the amazing Yorkshire Dales
this year! Follow the route of riders in the 2014
Tour de France or, if you don't think you have
the legs for that, try an easier valley route.

You can find loads of ideas on our site to help
20 you plan your visit to this very special place.

NEXT CLASS

Ask students to study the language of agreeing and disagreeing in the Speaking focus on p. 103.

8.6 Speaking

Agreeing and disagreeing

I can agree and disagree in a discussion and express my opinion.

- 1 In pairs, match two sentence endings to each beginning.

- 1 You waste energy when you
2 You save energy when you

- a turn on all the lights in the house.
b turn off unnecessary lights.
c turn on a dishwasher that's half empty.
d leave the car at home and cycle to work.

- 2 Read about Earth Hour. Do you think it's a good idea? Why?/Why not?

EARTH HOUR

What is it?

It's a global 'green' event.

Who organises it?

The World Wildlife Fund.

What happens?

Thousands of people around the world turn off all the lights and electrical devices for one hour.

Why do they do it?

To remind us all about climate change and the need to save energy.

When is it?

On the last Saturday of March.

Where and when did it start?

In Sydney, Australia, in 2007.

How many people take part?

In 2012 about 7,000 cities and towns in 152 countries on all the continents took part in Earth Hour.

- 3 **CD+3.51 MP3+148** Listen to Alice and Leo talking about Earth Hour. Who thinks it's a good idea? Who doesn't think it's a good idea?
Alice thinks it's a good idea, Leo doesn't.
- 4 **CD+3.51 MP3+148** Read the **SPEAKING FOCUS** and complete the conversation. Then listen again and check.
- Alice:** Hi, Leo. I'm going to take part in Earth Hour and I'm looking for people to join me.
- Leo:** Earth Hour? I'm not ¹ sure ... To be ² honest, I don't think it makes much ³ sense .
- Alice:** Why not? It's a great way to show you care about climate change.
- Leo:** ⁴ Maybe , but one hour doesn't change anything. People waste energy all the time. You can't save much in sixty minutes.
- Alice:** Yes, I ⁵ agree . It's true we won't save much energy during Earth Hour. But the point is to make people think about the problem, not just to save energy.
- Leo:** I see what you ⁶ mean , but what about all those candles? People burn hundreds of candles at Earth Hour events and they produce a lot of CO₂. It's all a waste of time.
- Alice:** Mmm, you have a ⁷ point . But I still think it's a great event. And you know, people and even whole cities make decisions to be more green because of Earth Hour.
- Leo:** Well, maybe you're right. Would you like some help?
- Alice:** ⁸ Absolutely . Thank you.

8.7 Writing

Expressing an opinion; presenting arguments

I can express my opinion in writing with reasons and explanations.

- 1 Read the sentences and check you understand the words in purple. Then, in pairs, tick the things you do to protect the environment. Compare your ideas with other pairs.

To protect the environment we should:

- **sort** our **rubbish** for **recycling**. ☐
- **turn off the light**, the computer and all other electronic equipment when we're not using it. ☐
- **save water** – for example, **turn off the water tap** when we clean our teeth. ☐
- walk and cycle more. ☐
- buy **recycled** things. ☐
- plant trees. ☐
- buy less and **throw away** less. ☐

- 2 Read the blog and answer the questions.

- 1 What does the writer think we should do to protect the environment?
- 2 What three arguments does he give for his opinion?
- 3 Do you agree with him? Why?/Why not?

Environment blog

Go veg to save the planet

by SamHarvey

- [A] **In my opinion**, the best thing we can do for our planet is to become vegetarians.
- [B] **First of all**, there is a lot of waste when we produce meat. For example, you need about sixteen kilograms of cereal and nearly 20,000 litres of water to produce one kilogram of meat. We should stop producing meat and grow cereals for humans instead. It will be much easier to feed all the people in the world.
- [C] **In addition**, you need a lot of land to keep large farm animals such as cows. In South America, farmers are destroying tropical forests to create space for cows which will become hamburgers in other countries.
- [D] **Finally**, remember the animals themselves! Animals on large 'factory farms' have a terrible life and a terrible death.
- [E] You don't even have to stop eating meat completely. Just eat less. You'll help save the Earth and feed everyone on it!

- 3 Read the blog again. Match the parts of the blog (A–E) with the descriptions (1–5).

- | | |
|--|----------------------------|
| 1 Add another argument. | <input type="checkbox"/> C |
| 2 Repeat your opinion and/or encourage the reader to do something. | <input type="checkbox"/> E |
| 3 Add the final argument. | <input type="checkbox"/> D |
| 4 State your opinion. | <input type="checkbox"/> A |
| 5 Give the first explanation/argument. | <input type="checkbox"/> B |

- 4 Complete the WRITING FOCUS with the words in purple in the blog.

WRITING FOCUS

Expressing an opinion; presenting arguments

- Stating your opinion
I think/I believe ... It seems (to me) ...
In my **'opinion'**, ... In my view, ...
- First argument
Firstly, ... First **2 'of all'**, ...
- Next argument(s)
Secondly, ... Also, ...
In **3 'addition'**, ...
- Final argument
4 'Finally', ... Lastly, ...

- 5 Replace the words in purple in the blog with different phrases from the WRITING FOCUS.

Exercise 2

- 1 We should become vegetarians.
- 2 There is a lot of waste when we produce meat, you need a lot of land to keep large farm animals, animals on large 'factory farms' have a terrible life.

Exercise 5

- In my opinion =
I think/I believe/
It seems to me/
In my view
- First of all =
Firstly
- In addition =
Secondly/Also
- Finally = Lastly

EXTRA ACTIVITIES

After doing Ex. 2, ask students to form pairs. With books closed, ask them to make a list of all the arguments the writer puts forward in the blog (*producing meat causes waste of foodstuffs, also causes waste of water, will be able to feed more people,*

uses a lot of land, tropical forests being destroyed, suffering of animals). Which pair can remember the most arguments?

NEXT CLASS

- Ask students to do Use of English 8.8 in the WB, p. 101.

- c Firstly, it's not safe. A mistake can cause a terrible disaster, like the one in Japan in 2011. 2
- d I believe the plan to build a nuclear power station next to our town is a very bad idea. 1
- e Secondly, we should not use nuclear energy if we don't know what to do with the dangerous radioactive waste. 3

7 Read the topics of three blog entries about the environment. Then match the topics (a–c) with the arguments (1–9).

- a We need more wind farms. b
- b Plastic bags are bad for the environment. a
- c Many people don't recycle. b
- 1 We throw away too much rubbish. c

- 6 It takes up to 1,000 years for them to disappear. b
- 7 They produce clean energy. a
- 8 There aren't many places left to throw away our rubbish. c
- 9 We can use other bags. b

8 Write one more point for each topic in Exercise 7. It can be for or against the idea.

- a _____
- b _____
- c _____

9 Match these suggestions with the topics in Exercise 7.

- 1 Go online and join our group, More Clean Energy! You will help the environment. a
- 2 Make sure you put your rubbish in the right bags or boxes. It will make a difference. c
- 3 So don't buy plastic bags in supermarkets. Soon, they will stop selling them! b

10 Choose one of the topics from Exercise 7 and write a blog of about 100 words about it.

In your blog, you should:

- express your opinion.
- give at least two arguments to support your opinion.
- encourage readers to take action.

Divide your blog into these paragraphs:

- Give your opinion. Do you agree or disagree with the idea in the title?
- Give your first argument. Why do you agree or disagree?
- Give your second reason for agreeing or disagreeing.
- Advise the reader what he/she can do.

11 Check.

- ✓ Have you included all the points in the task?

- Divide the class into teams. Give teams in turns a word or phrase from the list. They have to use it correctly in a sentence or give the translation. Give a point for each correct answer. The team with the most points at the end are the winners.

Adelie penguins are smaller than most other penguins. They are 45–75 centimetres tall. They have black heads with white rings around the eyes. On land they look funny, but they are amazing swimmers and they can dive down to 180 metres. At present there are a lot of them in the Antarctic, but global warming is a danger to these lovely birds. Penguins eat small sea creatures which live under the Antarctic ice. As the ice melts, there will be less and less food for them.

Visit Longleat Safari Park!

Open since 1966, Longleat is the oldest drive-through safari park outside Africa. On thirty-six square kilometres of countryside in sunny Wiltshire in England, you can see animals running free, like in their natural environment. There are lions, elephants, giraffes and monkeys; there are tigers, wild dogs, bears, wolves and more. There is a gorilla colony, a penguin island and a special pavilion with exotic butterflies. You can drive your own car through the park or travel on a safari bus. You can also book a VIP tour in a 4x4 car with a personal guide.

There are only about 3,200 tigers still living in the wild in the whole world. But there are many more – perhaps 10,000 – living as pets in private homes in the USA. Some people think it's cool to have a tiger, lion or leopard as a pet. I think it's cruel and selfish and should be illegal! Firstly, a big wild cat needs a lot of space to run free. Secondly, the owners often don't know how to look after such cats. Their pets don't have the right kind of food or can't give them the medical care they need, and many die. Finally, they can be dangerous to people – it's in their nature!

It's lovely, with flowers everywhere and the sun. And then at the weekend I have a party for my friends in the garden. We sometimes dance until midnight.
- On my birthday my mum always cooks my favourite food. So first I get up and I have a really good breakfast. Then she gives me a cake to share with my friends at school. After school I come home and we have a very big, very good dinner. And the next day I spend five hours in the gym!

I = Interviewer D = Debbie S = Sylvia C = Chris

I: I'm in a busy supermarket and I want to know what's in people's trolleys.

Hello. I'm from Channel 3. Can I ask you some questions?

D: Sure.

I: Thanks. What's your name?

D: I'm Debbie ...

I: Hi, Debbie. What's in your trolley today?

D: I've got things for breakfast. We always have a big breakfast on Sundays. I've got a carton of eggs, a packet of cornflakes, two cartons of milk and a carton of orange juice. And I've also got a tub of ice cream!

I: Ice cream for breakfast?

D: Er ... no. But on Saturdays, we get a takeaway from the Indian restaurant and we have ice cream for dessert!

I: OK, bye! ... And what's your name?

S: Sylvia.

I: What's in your trolley, Sylvia?

S: Well, today I've got a packet of spaghetti, a bag of onions, a jar of tomato sauce, a bottle of oil and a bar of chocolate ... I love spaghetti. It's so easy to cook!

I: And the bar of chocolate?

S: Oh, the chocolate is for after dinner – in front of the telly!

- I: Thanks, Sylvia. ... Now I'm at the checkout with Chris? What's in your shopping basket, Chris?
- C: Um... a loaf of bread, a tin of tuna, a jar of mayonnaise and two packets of crisps.
- I: A loaf of bread, a tin of tuna and a jar of mayonnaise? Let me guess: you want to make a sandwich!
- C: Yes, I'm always hungry after school, so I make a snack when I get home – tuna sandwiches and crisps, my favourite.
- I: Great, thanks.

K = Katy A = Anna

K: Hello.

A: Hi, Katy. Our exams finish on Friday! Do you want to go out for a meal to celebrate?

K: Oh hi, Anna. Yes, that's a great idea. There's a new restaurant in the town centre. It's called Starlight. Why don't we go there?

A: Starbright?

K: No, Starlight. S-T-A-R-L-I-G-H-T. The owner is a TV chef.

A: Really? I'm sure it's very expensive!

K: Not really. There are two menus. A three-course meal costs twenty-five pounds but a two course meal is only sixteen pounds. There's another menu for ten pounds but that's only at lunchtime.

A: OK. That sounds good. What sort of food do they serve there?

K: Well, they serve a lot of oriental food. But they also serve traditional English food.

A: I'm not too keen on hot and spicy but I'll be fine with grilled chicken! I hope they have some good desserts.

K: My brother's a waiter there and he says the desserts are fantastic!

A: Excellent! What time do you want to eat?

K: Well, they open at 6.30, so how about we go at 7.00? I get hungry quite early!

A: Me too! See you then.

Unit 3 Work

3.1 Vocabulary

CD-2.2 MP3-58 Exercises 5 and 6, page 37

- A Not many people believe that I like my job, but I think it's really interesting. I like numbers. I work long hours, sometimes nine – ten hours a day. My children say I work all the time. But it's a well-paid job. I'm an accountant. I work for a big international company. I work in a team with a small group of other people. I enjoy that.
- B The work is hard and not very interesting. The supermarket is open from early in the morning until late at night so my working hours change – from 6 in the morning to 2 p.m. or from 2 p.m. to 10 p.m. I'm always very tired when I get home! The job is badly-paid but I like it because shop assistants meet a lot of people.
- C I like writing about real people and situations. I travel a lot, so sometimes I don't see my family for a long time. But I often work from home, and then I see my family all the time. That's the life of a journalist. The money is OK, I think, not very bad and not very good.
- D I'm an artist and most of the time I paint, but I also work with children. I've got a part-time job at a centre for problem families. I work there two days a week. I do drawing and painting with the children. The work is very badly paid.

P = Presenter A = Amy T = Terry R = Richard

- P: Hello. Welcome to *Life Choice*. In today's programme, we look at the life choices of some young Peace Corps volunteers. There are more than 9,000 Peace Corps volunteers in seventy-five different countries round the world. Here are the stories of three volunteers in different countries. The first one, Amy, is in Sri Lanka in South Asia. Hi Amy. Can you tell us about your work for Peace Corps?
- A: I work with local teachers and we teach young children in the village. The lessons are in a very old school, but we are building a new school! We work on the building in the afternoons and on Saturdays. It's hard work but I enjoy it. And this place is so beautiful!
- P: Thanks, Amy. Our next volunteer is Terry. Hi, Terri! Tell us about your work in Haiti, in the Caribbean Sea.
- T: Hi. I'm working on a gardening project. We run a vegetable garden next to the local hospital so we can grow fresh vegetables for the patients. I like working with my hands and it's great to work outside. Some of the patients also help in the garden.

- P:** Thanks, Terry. And finally, here's Richard from Peru.
- R:** Hello, everyone. I work with street children – mainly teenagers. I talk to them in the street and try to help them. We also run a bakery together. The young people make the bread; they learn to work in a team and they learn practical skills. They make some money and they always have something to eat. The kids are great and they're teaching me real street Spanish!
- P:** So, do our volunteers think two years with the Peace Corps is a good life choice? Amy and Richard again.
- A:** Absolutely. You learn a new language, you meet people who are different from you, and you learn so much about yourself.
- R:** Well, it's exciting and sometimes difficult. It's great life experience. I'm a different person now.
- P:** It sounds fascinating. If you're interested in voluntary work, find out more on www.peacecorps.gov.

- A:** He works as a journalist for the local radio station.
- T:** Mmm, that sounds interesting.
- A:** It is. He says every day is different and he learns something new every day. It's really exciting.
- T:** So what exactly does he do?
- A:** He mostly reports on cultural life in our town. If there's a concert or a show or something, first he finds all the basic information on the Internet. Then he goes out and interviews people. And then he goes back to the office and prepares a short news piece – and we can hear it on the radio.
- T:** Wow! And is it a full-time job?
- A:** Yes, he usually works eight hours a day, sometimes longer. It can be quite demanding. Sometimes they work really long hours, also at night.
- T:** So is he making a lot of money?
- A:** Well, no, not at the moment. He's still gaining experience, you know.
- T:** And has he got a good boss?
- A:** Yes, he likes her very much. He says she's a very experienced journalist and he learns a lot from her. And his colleagues are very friendly too.

Here are some amazing records from 2013!

Nobody in the world is taller than Sultan Kösen. He's 2 metres 51.4 centimetres tall and he's the tallest living man in the world.

People call Skye Broberg the elastic girl. She is the most flexible person in the world. She can get into a small glass box! Skye is originally from Australia, but she travels to many other countries such as America or England to demonstrate.

Most people's tongues are around six or seven centimetres long. Chanel Tapper's tongue is 9.75 cm long – she's got the longest tongue in the world!

Chinese and Japanese are very difficult languages to learn, but experts say the most difficult language in the world to learn is Arabic.

Bertie Gladwin is Britain's oldest university student – he's ninety-one years old! That's over seventy years older than most students!

The first three most famous people are pop stars: Michael Jackson, Lady Gaga and Justin Bieber. After that comes the film star Jennifer Aniston.

4.3 Listening

CD•2.19 MP3•75 Exercises 3–5, page 51

- 1 The most important life event for a young person is leaving home. The best age is about eighteen or nineteen. Some people only leave home when they get married. But I think it is important to make your own decisions from a younger age. I'm seventeen now and I don't want to go to university. When I leave school, I want to get a job and earn money. Then I can leave home. I want to buy my own flat one day.
- 2 I think the most important life event is learning to drive. Now, my parents fetch me from my friends' houses – but they come at ten o'clock. I'm sixteen – I want to stay out later! I can't wait until next year when I can learn to drive! A driver's licence can also help you get a better job. I think falling in love or buying your first flat are important but for me, at the moment, all that is less important than learning to drive.
- 3 For me, going on your first date is really important. It's that first step in romance. And I think falling in love is the most important life event. I remember my first date – I was so nervous! I'm fifteen now and my boyfriend Paul and I are in love. Of course, we don't want to get married yet! We want to do lots of things before we get married – study, travel. Anyway, it's better to get married when you're older – around thirty or later. I just hope Paul and I are still together when we're eighteen years old – and when we're eighty years old!
- 4 I think the most important thing is your first job. Most people get their first job in their twenties – twenty-one, twenty two – but I think it's a good idea to get a Saturday job or a holiday job when you're younger. I'm fifteen and I work in a shop on Saturdays. It's good experience and I'm saving all the money to pay for driving lessons! I want to buy my own car one day.

- B: Yes, I agree. My family's pretty big. I've got one older sister, one younger sister and a younger brother. Oh, and I live next door to my cousin, Katy. She's a lot younger than me.
- A: You're lucky. My cousins live a long way away.
- B: My little brother and sister are ... well, little! They're untidy and a bit stupid! But my older sister, Sara, is fantastic. She's like my best friend.
- A: Is she a lot older than you?

- B: Not really – just a year. It's strange – her birthday is the same date as mine! We're both the sixth of June – different years, of course! Then my younger brother's and sister's birthdays are both in November and my mum's and dad's are both in March!
- A: Interesting! And what's Sara like? Is she like you?
- B: Well, to look at we're very different. My hair's dark and long, hers is short and blond. But we're like each other in lots of ways. We've got lots of things in common. We like the same music and pop bands. And we laugh at the same things too. She's very funny and tells lots of jokes!
- A: And is she sporty like you too?
- B: Well, in a way. She loves sport but my favourite sport is tennis and Sara loves swimming.
- A: Do you go out with her a lot?
- B: Well, obviously she's got her own friends from school. She's really sociable and she goes out with them to parties and the cinema and things. But she quite often comes with me to buy clothes. She's really stylish! We have a great time going round the shops.
- A: She sounds lovely! I'd like to meet her!

To be a stunt performer, you must be very fit and you must love outdoor activities. In fact, you must be good at all kinds of activities like swimming, riding motorbikes, driving sports cars or diving. Stunt performers must be able to work in teams because a good stunt needs several people to work together. Stunt performers mustn't be afraid of danger but they mustn't do anything that risks their life or the lives of the people in their team. They must always make sure the stunt is safe.

- M: What are all those books?
- J: We keep all the Science books here so everyone can use them in the lessons. You have to wear an overall in here too, over your school uniform, to protect it.
- M: OK.

M: Wow! It's really crowded in here!

J: That's because it's people's favourite place. We all meet our friends here and the teachers don't come because it's so noisy!

M: Is it cheap here?

J: Oh yes, really cheap. A full meal costs about £2.50 and of course, you can get snacks for around £1.00. A cola is about 1.20.

M: But there isn't anywhere to sit down – it's so busy.

J: Some people take their food into the park and eat it there. I usually go and sit in the playground and chat to my friends.

J: OK, now let's go in here. Now we mustn't talk loudly inside and you mustn't use your mobile phone. Switched off?

M: Yes. It's very big, and there are lots of books. Can you take them out?

J: Yes, you can borrow books for three days, so you can read them at home. You can also borrow DVDs and CDs for a week. You can use the computers too.

M: That's good. Where next?

J: Well, now we're in the biggest place in the school. We have a big school meeting here every morning before classes – it's called assembly. Everyone has to come – that's 350 people! Twenty of those are teachers, the rest students. The head teacher gives us important information. Sometimes people come to give us speeches as well.

M: Do you ever have lessons in here?

J: Not really, apart from Drama classes. Some after school clubs happen in here too. Of course, we usually do exams in here too – but let's not think about that now!

M: No, that's a good idea. I think it's a great school. I'm glad I'm coming!

B: Nearly all of them. Mr Banks – he teaches Maths – he was ill that day. He isn't there. But everyone else is.

A: I remember him. He spoke to you at your sports day. He was really nice.

B: Yeah. We all like him a lot. The tall man at the end is Mr. Jacobs. He was at sports day too. He's our PE teacher. He isn't a Drama teacher but he helps at our drama club sometimes. He gives us special exercises to relax!

A: Who's the lady in the middle?

B: That's our head teacher, Miss Rowe. She's also a History teacher and she gives us advice about jobs and college too. Then, next to her is Miss Finlay. She's my favourite teacher. We have English lessons with her and next year I want to go on a school trip to Spain with her.

A: Is Mr Smith in the photo? I think you said he was your Science teacher.

B: Yes. That's him with the short blond hair! No, he teaches IT. My Science teacher was ill that day too!

M: But I thought you like sports.

A: I do – usually. But I hate team sports, like football or basketball, and especially rugby.

M: Why?

A: Well, I just don't think winning is important. I don't care if my team is not the best. I hate all the competition.

M: Oh, I see. But PE is such fun. You can relax and enjoy yourself.

A: Fun? Relaxing? I have better fun in Science. Yesterday, Kevin missed a goal and the other guys yelled at him. They said, 'We lost because of you! You're rubbish!' I hate that sort of thing.

M: Yes, it's true that's not fair.

A: I don't think we should have to do PE at school if we don't want to.

M: But it's important. We can't just sit at school for hours; we need some exercise.

A: True, but there shouldn't be grades for PE. And we should have more choice of sports. I'd like to do some individual sports, like running. Or something with one other person, like squash maybe. We could have a climbing wall, or go to the swimming pool. We could have martial arts with a good instructor.

M: Yes! I'd love to do kung fu!

6.5 Grammar

CD-3.15 MP3-112 Exercise 1, page 78

The first Olympic Games took place in Greece probably in the year 776 BC (that is, before Christ). The Olympics was a sports event, but it was also a festival to honour Zeus, the father and king of the Greek gods. The winner's prize wasn't a gold medal, or a silver cup. It was a simple crown made from the leaves of an olive tree.

Competitors in the Ancient Olympics didn't wear any clothes. Well, in fact, they did at first, but in the year 720 BC, the rules changed and after that competitors didn't wear clothes.

Women couldn't take part in the ancient Olympics. So how did the Spartan princess Cynisca win the chariot race in the year 396 BC? Well, the winner of the chariot race was not the driver, but the person who owned the horses and the chariot. So, Cynisca's horses won the race for her.

CD-3.16 MP3-113 Exercise 4, page 78

- A:** OK, here's the first question: the International Olympic Committee organised the first modern Olympic Games in 1896. Where did they take place?
- B:** In Athens.
- A:** That's right. And did women take part in the first modern Olympics?
- B:** No, they didn't. Women first took part in the Olympics in 1900.
- A:** Very good. Question three: which sports did women do at first?
- B:** Tennis, golf, croquet and sailing in 1900, then swimming in 1912.
- A:** That's correct. Now here's a more difficult one: when did the first disabled athlete win an Olympic medal?
- B:** In 1904. Fifty-six years before the first Paralympics, George Eyser, a German-American gymnast with one leg, won six medals at the St Louis Olympics.
- A:** Brilliant. Question five: When and where did the first Winter Olympics take place?
- B:** In 1924 in Chamonix, France.
- A:** Excellent. Now, the Olympics didn't take place in 1940 or 1944. Why not?
- B:** Because of World War II.
- A:** Of course. And finally: when did the triathlon become an Olympic sport?
- B:** In 2000.
- A:** Congratulations, that's 100 percent – all your answers were correct answers! Well done!

- L:** Why not? It's a physical activity. You train with a coach. There are competitions.
- D:** Oh, OK.
- L:** It's so fun, and we could do it together. I think we should try it. I think there's a Salsa course for beginners at the Dance Academy starting next week.

Sally

I went on a tour with three friends. We travelled by coach to some cities in Europe. The tour guides were fantastic and I learnt a lot.

Dominic

I went on an activity holiday with my cousin George. We flew to Milan in Italy and took a bus to the activity centre. We tried lots of different activities. It was fun!

Magda

I went on a fantastic beach holiday with my parents. My father decided to go by car so we had to take a ferry to get to Kos, a Greek island. We relaxed on the beach and went on excursions to see some amazing Roman ruins. Awesome!

 B: OK, I'll think about it. Thanks.

CD-3.32 MP3-129 Exercise 2, page 91

J = Jeff C = Chloe

- J: Hi, Chloe. Did you know that the new cinema is showing all the Iron Man films on Saturday night? Do you want to go?
 C: Sure. I missed the last Iron Man film, so I'd love to go. What's the new cinema? I haven't heard about it?
 J: Film City. It's a new arts cinema. Looks great.
 C: OK, good.

CD-3.33 MP3-130 Exercise 3, page 91

J = Jeff C = Chloe

- C: Where do you want to meet?
 J: Let's meet at the cinema. We can meet early and have a coffee before it starts.
 C: Great! How do I get to Film City?
 J: It's in King's Road. You know the Jolly Café in Park Street?
 C: Yeah.

- J: Well, you go out of the café and turn left. Then you turn right into High Street.
 C: OK.
 J: Walk along High Street past the Post Office on your left. King's Road is the first turning on the right. Turn into King's Road and walk past the Ritzy on your left. Film City is next door. It's on the corner of Shakespeare's Road and King's Road.
 C: Great. See you there at seven?

CD-3.37 MP3-132 Exercise 8, page 95

1

- A: Good morning. Can I help you?
 B: Yes, I'd like to book a holiday to Sardinia.
 A: OK, how many nights would you like to go for?
 B: Um ... seven nights.
 A: And what sort of accommodation are you looking for?
 B: Oh, it depends on the price.
 A: We've got a great offer for two people in a three-star hotel. It's £399 per person – that includes the plane tickets. It's to Alghero in Sardinia. It's on the coast. You fly there from London and then travel to the hotel by bus.
 B: OK, thanks. That sounds perfect. Can I book it now?
 A: Yes, of course.

2

- A: Hi, how can I help you?
 B: I'd like to check in.
 A: Have you booked?
 B: No, I haven't.
 A: I'm afraid we're full tonight, but we've got places tomorrow.
 B: OK, I'll book in for two nights starting tomorrow. Do you know any other campsites near here where I could stay tonight?
 A: No, but there is a great guesthouse two kilometres away. Shall I phone to see if they have any rooms?
 B: Yeah, that would be great. It's for two people.
 A: OK, you can stay there tonight, I've reserved for you. I'll give you directions.
 B: Thanks, that's great.

3

- A: I'd like to check in.
 B: Sure. Can I see your passport and ticket, please?
 A: Here you are.
 B: And have you got any luggage?
 A: Yes, here it is. Can I check in both cases?
 B: I'm sorry, we can only check in the big case. You have to take the small one as hand luggage.
 A: Next time I want to travel with no luggage! Is the flight on time?
 B: Yes, it is. Here's your passport and boarding card. Have a good flight.
 A: Thanks.

4

A: Tickets, please.

B: I'm sorry, I can't find my ticket!

A: I'm afraid you'll have to buy another ticket. You can't be on the train without a ticket. Where are you travelling to?

B: To Liverpool.

A: OK, that's fifteen pounds, please.

B: OK, here you are.

A: Don't lose that ticket!

B: Right!

Unit 8 Nature

8.1 Vocabulary

CD-3.38 MP3-135 Exercise 10, page 97

P = Presenter MC = Mark Cragdale

P: Today we are talking to Mark Cragdale from the World Wildlife Fund. Mark, we talked earlier about some of the wonders of the natural world. These places are so precious but are they safe?

MC: Unfortunately not. I think we can say nothing on earth is completely safe from humans. Of course, governments often try to protect those natural wonders. The Valley of Flowers, for example, is a national park and it's actually doing quite well. It's very high up in the mountains, there are no farms or houses, or cars. In Argentina, the government stopped tourist helicopter trips to the Iguazu Falls because the helicopters made a lot of noise and polluted the air.

But the Congo region is a different story; it's a much larger area and has more problems – especially illegal hunting of gorillas and elephants. People also cut down trees in the rainforest and this destroys the natural environment of those animals. So the situation there is not good.

In the Coral Triangle, problems include illegal fishing, which also affects other animals such as turtles. Global warming is very dangerous for the coral reefs. Coral can only live in water of exactly the right temperature; if the water gets even a little bit too warm, it dies. So climate change can destroy coral reefs completely. And there is also the problem of water pollution.

So we really should do everything we can to protect the environment in those unique places.

8.3 Listening

CD-3.43 MP3-140 Exercises 4 and 5, page 99

A: And here's Nick Newman with the late-night weather.

B: Good evening. Well, it seems spring's almost here. Across the British Isles, tomorrow will be warmer, but not everywhere.

So, let's look at the weather in more detail, and I'll start with the South. In all of Southern England, tomorrow will be the sunniest day of the week; it will be dry, with clear skies and sunshine all day. In most places, there'll be a light wind, but it will still feel quite warm; temperatures will be around eighteen degrees in most of the area and will get to twenty in Cornwall.

Across Wales and the Midlands, the morning will be foggy, but the fog should soon clear. After that we can expect a sunny day with some cloud. There will be a few showers with the possibility of thunder in the late afternoon. The morning won't be very warm – only eight degrees, I'm afraid. But it should get warmer during the afternoon and the temperature will rise to fourteen degrees.

In the North of England, Saturday will be a windy day, and that strong west wind will bring rainy weather from the Atlantic. It will be cloudy with showers most of the day but there will be some sunny moments. Temperatures will be around thirteen degrees, but it will feel colder in the wind.

Now for Scotland and Northern Ireland. Well, it's definitely not spring here yet. There will be a lot of cloud around and quite a lot of rain. The Highlands will have the wettest weather. The rain will be heavy there, and high up in the mountains it may still snow tonight and tomorrow night. Temperatures at best around eleven degrees.

8.5 Grammar

CD-3.50 MP3-147 Exercise 3, page 101

L = Luke Lu = Lucy

- L: Hi, Lucy. Have you got any plans for this weekend?
- Lu: Yes, I'm going to spend the weekend in Wales.
- L: Wales? That sounds nice. Are you going to visit a friend there?
- Lu: No, I'm going to stay with my cousin Zoe. We're going to go walking in the mountains and if there is time, we're going to visit Conwy castle.
- L: That sounds great. Not like my weekend.

- Lu:** Why? What about you? What are you going to do?
- L:** Me? I'm going to study. I've got a Geography test on Monday.
- Lu:** Oh poor you! But aren't you going to have any fun at all?
- L:** Well, maybe. I'm going to play tennis with Jack on Saturday. And on Sunday evening I'm probably going to see the new James Bond film with some friends.
- Lu:** Oh yes. Zoe and I are going to see it too.

CD 3.52 MP3-149 Exercise 8, page 107

L = Lauren J = Jack

- L:** You're lucky to live in this area. It's very beautiful.
- J:** Yes, it is. And there are lots of places that tourists can visit. Have you been anywhere interesting yet?
- L:** Oh yes. Yesterday I went to the nature reserve. Where I live, we have wolves in our nature reserve but here you have lots and lots of sea birds. They were very beautiful.
- J:** I love it there. You must also go on a trip through the Kirkland Hills. They're quite high and there's a small waterfall near the top of the highest hill. No glaciers, I'm afraid – we're too far south!
- L:** I saw a brochure about the New Forest too. Is that near you?
- J:** About half an hour away. It's a very old forest and a long time ago you could find wild pigs there. Now people go there to see the wild ponies. They live all year in the forest and they're free. They go on the roads, in the shops, everywhere!
- L:** Wow! And what about Brown's Island?
- J:** That's just off Headland Beach. You can get a boat across. It's very popular too. There are a lot of rare flowers there. When you come back, walk for a kilometre along Headland Beach and you might see some colourful butterflies. They are unique to that area. I think it's because of the climate.

45 In the future (8.2 Grammar)

Aim: to practise future with *will*

Interaction: groups of four

Type of activity: board game

Time: 15 minutes

Materials: one worksheet, one dice, four coloured counters per group

In class: (1) Divide students into groups of four and give each group a worksheet and a dice. (2) Each student places a different coloured counter (or small object, e.g. a rubber, paper clip, pen top) on the *START* square. (3) Students take turns to throw the dice. The one with the highest score starts; he/she throws again and moves the counter forward the number of squares shown on the dice. When they land on the square, they have to make a prediction for each picture they land on. Make sure they understand the sentence can be any prediction related to the picture. The prediction can be affirmative or negative. Elicit a few examples for picture 1, e.g. *I will be rich in ten years. I won't spend all my money next weekend. I will get some money for my next birthday.* (4) Students say a sentence for each picture they land on. If the rest of the group agrees that the sentence is grammatically correct, they stay on the picture. If not, they go back to their previous square. Students cannot repeat sentences, so if two students land on the same square, the second student's sentence must be different. (5) Students don't need to throw an exact number to reach *FINISH* – as soon as they throw a number higher than the remaining number of squares, they pass the finish line. The first student to reach *FINISH* wins the game. Groups can play again. (6) Check answers with the class.

Optional follow up: Students write predictions for some of the pictures.

Example sentences:

1 I will be rich. 2 I'll learn French in the future. 3 I'll buy a big house one day. 4 My sister will go shopping at the weekend. 5 Pollution will destroy the coral reefs. 6 They will invent a fantastic new mobile phone soon. 7 We'll fly somewhere on holiday next year. 8 I won't get married in the next five years. 9 Penguins won't die out. 10 It will be very hot next summer. 11 I'll go to university and study Maths. 12 Polar bears' habitat will get smaller. 13 I'll go to the beach for my next holiday. 14 My brother will go to London for a year. 15 Pollution will get worse in cities. 16 The rainforest will disappear. 17 I'll work hard and I'll pass all my exams. 18 I won't get a job in an office. 19 I think I'll have two children. 20 My friend will go skiing next winter. 21 There will be flying cars soon. 22 I'll have a nice meal this evening. 23 I won't play football next weekend. 24 I'll go to the cinema with my friends next week. 25 I'll have a party for my next birthday. 26 I won't go to the beach next month. 27 I will never win a medal.
